For Institutional Orders Only: The American Physiological Society 9650 Rockville Pike
Bethesda, MD 20814-3991 (USA)

Your monthly (12 issues) subscription will start with the January 2006 issue. **Mailing addresses add $5 sales tax or provide tax exempt ID number on this coupon. All subscriptions must be paid in advance in U.S. dollars drawn on a U.S. bank located within the United States, or charged to VISA, MasterCard, or American Express.

EDITOR IN CHIEF:
J.M. Sands
ASSOCIATE EDITORS:

IMPACT FACTOR: 4.344

The American Journal of Physiology-Renal Physiology covers all areas of renal physiology, including:
- original, innovative research on the kidney, urinary tract, and their respective cells and vasculature
- thought-provoking investigations involving human and animal models, individual cell types, and isolated membrane systems
- cross-disciplinary papers on the pathophysiological basis of disease processes in the kidney, the urinary tract, and in the regulation of body fluids
- timely editorial reviews

Authors are required to submit papers online at www.apscentral.org.

Special Features Include:
- Sign-up for e-mail notification of advance tables of contents
- Fully searchable text, including Pub Med
- Rich color and sharp resolution of figures
- Editor’s Home Page: www.the-aps.org/publications/ajprenal
- Articles in Press: Accepted research papers are now published online within a few days after their acceptance.
- Perpetual/Electronic Archiving: The LOCKSS system preserves the electronic content of all APS journals.

Special APS Member Benefits
- FREE Online Access to 15 APS Journals and APS Journal Legacy Content: Members of the American Physiological Society (APS) receive FREE online access to both the current content and legacy content (going back as far as 100 years for some journals) of these APS research journals (this free online access includes AJP-Renal Physiology).
- FREE Color Figures: Regular and Emeritus Members of APS who are first or last authors receive FREE color figures in all APS journals.

A Journal of The American Physiological Society and participant in the Washington DC Principles for Free Access to Science

ajprenal.org
The American Physiological Society (APS) provides leadership in the life sciences by promoting excellence and innovation in physiological research and education and by providing information to the scientific community and to the public.

The Awards, Grants, and Fellowships programs are designed to strengthen and shape the discipline through awards that support, recognize, and publicize the scholarly and research activities of APS Members.

For Full Details or Questions...on all awards, grants and fellowships, visit the APS web site at:

www.the-aps.org/awards
Dear Librarian,

I would like to recommend that our library subscribe to the *American Journal of Physiology-Renal Physiology*. This is a journal published online and in print monthly by The American Physiological Society (APS).

The *American Journal of Physiology-Renal Physiology* contains information on kidney and urinary tract physiology, epithelial cell biology, and control of body fluid volume and composition. Investigations involve human or animal models, including invertebrates, plus isolated, reconstituted, or artificial organella or membrane systems or cells.

How to subscribe: You can subscribe in one of three ways: 1) Online Only, 2) Print & Online, or 3) Print Only. The different subscription rates can be found below. You can also choose to receive free e-mail table of contents notification when new content is released on the web.

**SPECIAL FEATURE**

Legacy Content Package Offer: Pay only one fee today and access forever: Librarians can purchase online access to the legacy content of all 15 APS research journals (including *American Journal of Physiology-Renal Physiology*) — at a one-time fee of $2,000 for perpetual use. This legacy content contains over 100 years of historical scientific research.

Your subscription will start with the January 2006 issue. All subscriptions must be paid in advance in U.S. dollars drawn on a U.S. bank located within the United States or charged to VISA, MasterCard, or American Express.
The American Physiological Society is proud to announce that the full historical content of its 14 journals, going back to the very first issues of the American Journal of Physiology in 1898, is now available online—as the APS Legacy Project.

To commemorate this event, we have asked a group of expert authors to write essays on some of the most significant articles from the body of APS literature.

A Few Samples of the Classic Articles

Listed below are a few of the Classic Articles which have been singled out for essays written by eminent scientists with first-hand or personal experience in the field. All the essays and Classic Articles are free for viewing by all users at this web site: www.the-aps.org/publications/classics

➤ You can order the full set of Legacy Content for a one-time low price of $2,000. For more information, go online at: www.the-aps.org/publications/legacy

The American Physiological Society (APS) offers free-of-charge access to the full text of articles (approximately 20,000 articles) published in our online journals after only 12 months from the publication date (going back to 1997).

Our large and growing library of physiology research is available to anyone with internet access. The journal publishing program of The American Physiological Society covers the entire spectrum of physiology—examining major physiological systems from the cellular and molecular to the organ and system level. All APS journals are available in print and online. Online subscriptions include free-of-charge online search capabilities extending to over 350 outstanding biomedical journals published online by HighWire Press.
