American Journal of Physiology-Renal Physiology

Scope of Journal
The American Journal of Physiology-Renal Physiology covers all areas of renal physiology, including:

- original, innovative research on the kidney, urinary tract, and their respective cells and vasculature
- thought-provoking investigations involving human and animal models, individual cell types, and isolated membrane systems
- cross-disciplinary papers on the pathophysiological basis of disease processes in the kidney, the urinary tract, and in the regulation of body fluids
- timely editorial reviews

Authors are required to submit papers online at www.apscentral.org.

Reader & Author Benefits
- Fully searchable text, including PubMed
- Rich color and sharp resolution of figures
- Editor’s Home Page at www.the-aps.org/publications/ajprenal
- FREE access to the extensive collection of back issues available online 12 months after publication
- FREE e-mail notification of new content as it becomes available
- Manuscripts online within days of acceptance
- Perpetual/Electronic Archiving of the LOCKSS and CLOCKSS systems preserves the electronic content of all APS journals.

Authors can choose to pay $2,000 on top of regular author fees and have their article made free immediately.
The American Physiological Society (APS) and the Women in Physiology Committee are pleased to announce their partnership with MentorNet, an award-winning one-on-one mentoring program.

MentorNet's Academic Career E-Mentoring Program matches graduate students, postdocs and untenured faculty members in physiology with experienced scientists for an 8-month mentoring relationship conducted via email.

MentorNet also offers a Résumé Database for students seeking jobs or internships.

All APS trainee and early career members are eligible to participate as proteges. All APS members are encouraged to participate as mentors.
