American Journal of Physiology-Renal Physiology

Scope of Journal

The American Journal of Physiology-Renal Physiology covers all areas of renal physiology, including:

- original, innovative research on the kidney, urinary tract, and their respective cells and vasculature
- thought-provoking investigations involving human and animal models, individual cell types, and isolated membrane systems
- cross-disciplinary papers on the pathophysiological basis of disease processes in the kidney, the urinary tract, and in the regulation of body fluids
- timely editorial reviews

Authors are required to submit papers online at www.apscentral.org.

Need to promote open positions, fellowship opportunities, programs, or conferences in physiology?

Advertise in the publications of The American Physiological Society (APS). The APS publications are a perfect way to advertise to research investigators, clinicians, educators, and information specialists in all disciplines of physiology. Two of the APS publications, Physiology and The Physiologist are distributed to over 11,500 APS members. Most APS publications offer email advertising options and now the APS eNews Update accepts advertising. Online ad design is available. Recruitment and product advertising are accepted.
