The consolidated *American Journal of Physiology* (AJP) ranks as one of the most frequently cited publications among all physiology journals listed in the *Journal Citation Index*. Published in two monthly volumes by The American Physiological Society, the consolidated AJP brings you approximately 2,700 articles encompassing over 22,000 pages annually.

The consolidated edition of the AJP provides comprehensive coverage of the latest research published in these important specialty journals:

- Cell Physiology
- Endocrinology and Metabolism
- Gastrointestinal and Liver Physiology
- Lung Cellular and Molecular Physiology
- Heart and Circulatory Physiology
- Regulatory, Integrative and Comparative Physiology
- Renal Physiology

As your comprehensive source for the full spectrum of current physiological research at a single low subscription price, the consolidated AJP is an unbeatable value.
Authors:

Publish your name in your native language

Authors who publish in APS journals may now present their names in non-Latin characters (in their native writing system) alongside the standard English transliteration of their name in the main author line of the published article; for example, “Ta-Ming Wang (王大明)”.

We will accept any non-Latin languages that have standard Unicode characters designated for the native characters. For authors that choose this option, please only provide the native expression for the original written form of the transcribed name; that is, do not include any associated degree, rank, or title information in the native format. This feature is meant for the person’s name only, not for ancillary information regarding academic achievement or institutional affiliation.

To take advantage of this new feature, please insert the native expression of your name alongside the English transliteration in the main title page of your manuscript submission.
Date & Location:
August 4-7, 2010
Westin Westminster
Westminster, Colorado
Abstracts Due: May 3, 2010
Advance Registration: June 25, 2010

Member Benefits

Your Professional and Career Development
APS embraces a wide variety of disciplines devoted to human and animal health and function—including systems biology, genomics, translational research and all other life sciences.

Meet like-minded colleagues through the following distinctive groups and programs:
• Serve on APS sections—and—APS committees
• Serve on special interest groups
• Organize an APS conference
• Serve on FASEB boards and committees
• Participate in APS honors and awards programs
• Participate in APS education programs
  • NEW! Professional Skills Training Courses
  • NEW! Mentoring
  • NEW! Science Fair Awards

Your Source for Information Services
• Free online access to the current content and legacy content of 13 APS research journals (this legacy content is an online package of over 100 years of historical scientific research, and is normally $2,000 for nonmembers)
• Free essential color figures to APS members (Regular and Student) who are first or last authors of articles published in any APS journal
• Free print subscriptions to 3 of APS’s 15 research journals (Physiology, Advances in Physiology Education, and The Physiologist)—and over 50% discount on the other 12 APS print research journals
• Up to 75% discount on APS scholarly books
• 20% discount on subscription to Annual Reviews
• Over 30% discount on subscription to the AAAS Signal Transduction Knowledge Environment
• Online access to the FASEB Directory of Members
• Subscription discount for The FASEB Journal

Your Access to the Scientific Community
• Discount registration rates for Experimental Biology
• Discount registration rates for APS Conferences
• Specialized listservs
