The consolidated American Journal of Physiology (AJP) ranks as one of the most frequently cited publications among all physiology journals listed in the Journal Citation Index. Published in two monthly volumes by The American Physiological Society, the consolidated AJP brings you approximately 2,700 articles encompassing over 22,000 pages annually.

The consolidated edition of the AJP provides comprehensive coverage of the latest research published in these important specialty journals:

- Cell Physiology
- Endocrinology and Metabolism
- Gastrointestinal and Liver Physiology
- Lung Cellular and Molecular Physiology
- Heart and Circulatory Physiology
- Regulatory, Integrative and Comparative Physiology
- Renal Physiology

As your comprehensive source for the full spectrum of current physiological research at a single low subscription price, the consolidated AJP is an unbeatable value.

Benefits

- Perpetual/Electronic Archiving—The consolidated AJP is part of LOCKSS and CLOCKSS.
- Counter-Compliant Usage Statistics—Online access to counter-compliant usage data is available to all institutional subscribers.
- Reference Linking—The consolidated AJP participates in CROSSREF, a reference linking service that turns citations into hyperlinks, allowing researchers to navigate online literature at the article level.
- Fully Searchable Text—Fully searchable text is available, including PubMed.
- Advance Tables of Contents & CiteTrack—Sign-up for e-mail notification of advance tables of contents and new articles matching a search criteria of your choice.

AuthorChoice
Authors can choose to pay a fee on top of regular author fees and have their article made free immediately ($2,000 for research articles and $3,000 for review articles).
For instructions on how to prepare your manuscript to conform to APS style, please see http://www.the-aps.org/publications/i4a/index.htm

Manuscripts to AJP-Renal Physiology are submitted online through www.apscentral.org.

Mandatory Submission Forms and Fee Forms customized to your manuscript become available on completion of the submission process. For extra copies of blank forms, see http://www.the-aps.org/publications/journals/index.htm

If you use a blank form, please write the manuscript number, title, and author’s name CLEARLY on the form.
American Journal of Physiology-Renal Physiology
Special Call for Papers

Programming Normal Renal Development and Modeling Disease Pathogenesis
Submission Deadline: July 1, 2011

The American Journal of Physiology-Renal Physiology is seeking manuscripts to be submitted specifically related to the biology of renal development in health and disease. Submitted papers should address new scientific advances regarding the biology, pathophysiology, and genetics of the developing kidney and urinary tract. To be eligible for inclusion in the Call for Papers, manuscripts must be submitted by July 1, 2011.

Note to Authors: All manuscripts should be submitted online via eJournalPress, http://ajprenal.msubmit.net; during the online submission, under the “Keywords, Categories, & Special Section” tab, please choose “Programming Normal Renal Development and Modeling Disease Pathogenesis” under “categories.”

The manuscript will undergo normal peer review. If published, the article will be highlighted together in print with other papers appearing in response to this Call and will carry a banner indicating that the paper was submitted in response to this Call for Papers. Submissions will be reviewed as they are received and will be published online immediately upon acceptance.

If you have any questions or currently have a manuscript in this area submitted to the American Journal of Physiology-Renal Physiology and would like it to be included in this series, please contact Dr. Thomas Kleyman, Editor-in-Chief (e-mail: kleyman@pitt.edu).

American Journal of Physiology-Renal Physiology
Special Call for Papers

Biology of the Central Cilium and Cystic Diseases of the Kidney
Submission Deadline: July 1, 2011

The American Journal of Physiology-Renal Physiology is seeking manuscripts to be submitted specifically related to the biology of the central cilium and cystic diseases of the kidney. Submitted papers should address new scientific advances regarding the biology of the central cilium and the pathophysiology and genetics of cystic kidney diseases. To be eligible for inclusion in the Call for Papers, manuscripts must be submitted by July 1, 2011.

Note to Authors: All manuscripts should be submitted online via eJournalPress, http://ajprenal.msubmit.net; during the online submission, under the “Keywords, Categories, & Special Section” tab, please choose “Biology of the Central Cilium and Cystic Diseases of the Kidney” under “categories.”

The manuscript will undergo normal peer review. If published, the article will be highlighted together in print with other papers appearing in response to this Call and will carry a banner indicating that the paper was submitted in response to this Call for Papers. Experimental Biology 2011

April 9 – 13, Walter E. Washington Convention Center, Washington, DC

Submit your abstract today online at www.experimentalbiology.org

Early Registration Deadline: Wednesday, February 9, 2011

Late-Breaking Abstract submission deadline: Wednesday, February 9, 2011

Hotel Reservation Deadline Friday, March 4, 2011

Discover inspiring museums, powerful monuments and memorials in Washington, DC. A diverse, cosmopolitan world capital awaits you. Come for the great science – experience the fascinating, free attractions and festive events that make DC a favorite destination for travelers from around the world.
